

Heat pump manager WPM II

Perfect energy management.

The heat pump manager takes care of the optimum operation of a heat pump and calculates the most efficient handling of the heating energy. Numerous functions and the combined symbol:plan text display provide an incredibly easy operation of this advanced technology. In conjunction with the mixer module, up to 6 heat pump stages can be controlled.

The most important features

Integral solar controller or alternatively heat meter
(only with the WPM)

Pasteurisation control

Screed heat-up program

Hours run meter

Heating and DHW programs

Example: WPMW II

Type		
Type	WPMW II	WPMS II
Part no.	185450	185451
Height	215 mm	100 mm
Width	246 mm	150 mm
Depth	140 mm	85 mm
